

## SPACE ADVENTURES – KS3 LITERACY RESOURCES

Teachers can work through lessons, mapped to the curriculum, which follow the story of Tazz through the Vlogs, or select more flexible activities such as letter-writing or newspaper articles which relate to the resource as a whole.

In addition to these activities, classes have the opportunity to select and read any of the vlogs and try out performance/ sound effects and filming of their own. For a bigger project, children will relish the opportunity to create and film their own Space Adventure with detail on every aspect needed available on Culturestreet through LGfL.

Vlogs	K2 LOWER	K2 UPPER	KS3
